176.280 PD CONNEX

PSB25 Power Splitter P-Con IN – 5x P-Con OUT

The PDConnex Multi Way Power Splitters are ideal for tidy and targeted power distribution on stages, on trussing systems and in equipment rigs. This series of power splitters is lightweight, portable, and road-ready, providing rapid equipment configuration for live sound, stage or studio recording, lighting and many other applications. Also includes a location to thread on a clamp or adapter with an M10 thread hole. Plug-and-play.
