

# EDA 50

Today's digital drum technology creates multiple tones at a very broad range of frequencies that all have to be heard simultaneously. Those distinctive sounds generated from the snare drum, tom-toms, bass drum and cymbals are all heard in the same way as the acoustic kit. We are proud of the EDA Series as they perform like a true drum amplifier should, delivering those rich, broad tones that inspire you to play more. We strongly recommend the EDA200S for that powerful sound projection, but if you are on a budget or space is tight go for the EDA50.

## product Specification

- 2 Channel Inputs
- Built-in 50 watt power amplifier
- 3 Band EQ
- Aux Input
- 10" bass driver plus tweeter
- Full metal grille for speaker protection
