Pumpkin Head with Smoke Machine

Complete set with:

Pumpkin Head

Amaze trick-or-treaters and other guests with this traditional Halloween icon elevated by a spine-chilling new twist. With this unique Halloween pumpkin, you can create a unique spooky display in combination with the included beamZ S553L Smoke Machine. The colour-changing LED lights on the front of the smoke machine (red/green/blue) shine from the inside of the pumpkin through the carved cutouts. In combination with the smoke, this gives a mesmerizing spectacle. Securing the pumpkin to the smoke machine is a breeze with its effortless 1-click connection. Once connected, brace yourself for a bone-chilling experience as the built-in speaker emits terrifying sounds. Don't miss out on this essential addition to your Halloween setup!

S553L Smoke Machine

Take your party or event to the next level with beamZ's smoke machines, designed to deliver an unparalleled experience for parties and events. With a powerful heating element, these smoke machines effortlessly generate dense clouds of smoke after a short warm-up time. With the integration of an electronic thermostat, these smoke machines ensure consistent and reliable smoke production. Regardless of the size or style of your gathering, beamZ offers a wide range of smoke machines with different features, making it easy to find the perfect smoke machine for your party.
