WCS1 EazyLink Charging Station

The beamZ WDM1 EazyLink System turns any wired DMX system into a convenient wireless DMX system! This means you can convert any DMX-equipped light effect wirelessly using the direct wireless communication technology of the EazyLink dongles. The system is incredibly easy to use: simply connect the transmitter and receiver to an XLR connector where you would normally plug in a DMX cable. The transmitters and receivers can be charged separately, but a docking station is also available (optional) suitable for 8 EazyLink dongles.

Product colour : Black
Power supply : 100-240VAC 50/60Hz (5V USB)
Dimensions (L x W x H) : 160 x 87 x 35mm
Weight (kg) : 0,16

- EazyLink Charging Station
- Charges up to 8 WD1 dongles simultaneously
- Direct charging, no cables needed
- With additional USB port to charge additional device
