GIGCase38T Universal Hard Case Trolley

Introducing the GIGCase protector case - the ultimate solution for protecting your most valuable equipment and gear. Whether you're a professional DJ, a musician, or just someone who wants to ensure the safety of their electronics, this case has you covered. The GigCase is built with rugged durability in mind, featuring a crushproof, dustproof, and waterproof design that can withstand even the toughest environments. It's constructed with a high-impact material that is both lightweight and tough, ensuring that your equipment stays safe and secure during transport.

With its customizable foam interior, the GigCase can be tailored to fit a wide range of gear, from microphones and lighting equipment to hardware and laptops. The foam can be easily cut to fit your specific equipment, providing a snug and secure fit that prevents any movement or damage during transport. The case also features an easy-open throw latch that seals the case tight, keeping out water, dust, and debris. It also has a built-in pressure release valve that allows for easy opening at any altitude or temperature.

The GigCase series is the ultimate choice for anyone who needs to transport their gear safely and securely.
