LSQ30 Light Stand Pro 3.0m

The LSQ30 is a professional light stand consisting of three sections that are adjustable by means of easy-to-use screw locks with large rotary knob. On the top there is a fixed universal spigot attachment. The stand features a double-braced leg base for extra strength and one adjustable leg for stability on uneven terrain. As an extra safety feature, the stand is spring cushioned to ensure your lighting fixtures are protected.
