

176.303 **PD CONNEX**

## CX187 RJ45 to 4x XLR3F Splitter Box

The PDConnex Splitter Boxes are ideal for a wide range of applications including stage sound, lighting, and recording studio settings. With 4 channels and 3 pins XLR-connectors, this compact multi-network adapter can be used to connect a variety of audio devices to a single network cable up to 100 meters long, without the need to download any software or drivers. Also includes a location to thread on a clamp or adapter with an M10 thread hole. Plug-and-play.

Product colour : Black

Select both plugs : 3-pin XLR (F), RJ45

Weight (kg) : 0,23

- Stagebox with 4 XLR connections (female) to RJ45
- Simple multicore solution
- Numbered XLR connections
