MS10K Microphone Stand Kit

The Vonyx MS10 KIT is an all-in-one microphone starter kit with everything you need to start performing. The tripod microphone stand features three legs that retract and fold up to a neat package allowing for ultimate portability. A microphone clip is included and rubber rest pads on the microphone tripod stand's feet hold the boom mic stand firmly in place. Get crystal clear audio with the included handheld dynamic microphone that ensures excellent voice projection with little to no distortion. A carrying bag is also included to make transport a breeze!
