PIEZO-1 Tweeter Piezo Driver

Piezo driver unit for use with reflector horns fitted with a standard 35 mm screw terminal. This midrange/tweeter piezo driver has high efficiency and only puts a low load on the amplifier. No crossover is needed, therefore perfect for use in general PA applications where a long throw is required.

Product colour : Black
Output power: Max : 160W
Output power: RMS : 80W
Tweeter type : Piezo
Diameter tweeter : 1"
Frequency response : 3.000 - 29.000 Hz
SPL @ 1W/1m : 105dB
Mounting diameter : 1 3/8" (34mm) thread
Dimensions (L x W x H) : 106ø x 78mm
Weight (kg) : 0,20

- Midrange/tweeter piezo driver
- 35mm 1-3/8" standard thread
- 22mm ceramic piezo element
- 105mm Driver diameter
- Easy to install
