DB2 Foldable DJ Screen 120 x 70 White (4 Panels)

The BeamZ DB2 disco lighting screen is perfect to hide cables and other gear out of sight from public. It can be illuminated from behind to create powerful effects and various lighting patterns that will focus the attention on your DJ booth. This disco lighting screen is completely portable and ease to set up with his hook and loop system. The lightweight steel frame has a black finish that looks amazing in combination with the white Lycra front. The DB2 is from high quality and will ensure pleasure within many years to come.
